This Is Your Birth Chart

On the opposite page you see your Birth Chart. This is a picture of the Sun, Moon and Planets in the sky exactly as it appeared at the time and place of your birth. If your soul had a console, this is probably what would be in the middle of it! Below I explain what your Birth Chart is comprised of, but if you wish to get on with reading its interpretation straightaway then just skip this page and the chart itself. However, I believe that you will find the following information an important aid to understanding better the interpretations, and to making more use of them.

On your Birth Chart then, the **brown horizontal line** is simply the Southern Horizon - with the visible sky above it, and the non-visible sky beneath it. The arrowed end is called your Ascendant (ASC) - that is, where the Sun, Moon and Planets are seen to rise. The other, more or less **vertical brown line** with an arrow is called the Meridian. The arrowed end of this line is your Midheaven or MC.

The familiar twelve **Signs** of the **Zodiac** (depicted as petals) form an imaginary band encircling the Earth, and this is seen on your Birth Chart as bisected by the Horizon. The Sun, Moon, Planets, Ascendant and Midheaven are positioned in the Signs they were in at the time of your birth. The Sign that the Sun is in is what you know as your Sun-Sign or Star-Sign. Each Sign has the quality of one of the four Elements: **Red=Fire=Intuition/Creative**; **Yellow=Air=Thinking/Intellectual**; **Blue=Water=Feeling/Empathetic**; **Green=Earth=Sensation/Practical**.

The circular area within the Zodiacal band is divided into twelve segments called **Houses**, marked as the arrowed **House Cusps** in **brown** or **light blue**. The First House begins with your Ascendant, going in an anti-clockwise direction. The Tenth House begins with your Midheaven.

The various coloured lines joining one Planet with another are graphic depictions of what are called your **Aspects**. These are determined by any two planets or points forming a particular angle at the centre of your Birth Chart, i.e. where you were born. However, one of the strongest aspects is the Conjunction. These, if you have any, are not marked by lines because they are made obvious by the planets involved being next door to one another.

Below the Chart Wheel, under the section headed 'Radix1' and your name, you will see the following information: your Date, Time, and Place of Birth (by Latitude and Longitude, and usually the name of the actual place or nearest town). Please check this information is correct. 'Zone' refers to the Standard Time in which you were born, giving the number of hours it was ahead of (East) or behind (West) Greenwich Mean Time. The middle part of this section gives at the top the exact Sign positions by degree of your MC (MidHeaven) and ASC (Ascendant). The figures that are given immediately below this are the other House Cusps, headed by the House System used (Plac for Placidian) and followed by the Sign and House positions for your North Lunar Node (Nod) and your Part of Fortune (Poi); none of these positions is interpreted in the Profile. The right-hand part of this section lists the Sun, Moon and Planets, giving their **exact Sign positions**, along with their **House placement numbers** in the last column. The position of the comet Chiron is also given, but is not interpreted

Finally, the lower section gives all your interplanetary **Aspects**. You will see that each of your Aspects has a figure beside it which refers to the number of degrees and minutes of arc outside of exact it is (which would be 0 00), and within a maximum orb of 10 degrees that are allowed for an Aspect to be made. As a rule, the closer to exact an Aspect is then the more influential it is. The Aspect names and abbreviations are as follows: Conjunction=Cnj; Square=Sqr; Opposition=Opp; Trine=Tri; Sextile=Sxt.

Now, by using the table of Symbols set out below, you will be able to see for yourself where the Sun, Moon and Planets are in your Birth Chart, and what Signs and Houses they are placed in. Start out by determining your Sun's Sign position for you probably already know this.

Home*Star Concise Personality Profile

Above and on page 1 you see your Name, and your birth details - the Date, Time, Time Zone and your Place of birth and its Latitude and Longitude. Please check this information is correct.

Whilst Reading Your Profile

Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your **potential**, and is not able to say what you have made of that potential. Whilst reading, you should rely upon your own judgement and individual choice, will and inclination - which are precisely what your Profile is aimed at shedding light upon.

Also, you may notice contradictory traits or ones that are repeated in some way. This would simply be because there are opposing traits that each manifest at different times, or that you have certain qualities heavily emphasised.

Finally, the overall accuracy of your **Personality Profile** depends upon the accuracy of your Birth Time. If birth time is vague or approximate, bear in mind that the House positions of the Planets may not be accurate.

Introducing Yourself To You

A horoscope symbolises and sheds light upon your character, your purpose, your needs, your talents, your difficulties, your sensitive spots, your destiny and more.

Below are the 'astrological positions' of your horoscope, followed by the interpretations, set out in Chapters - describing what they mean in your life.

You were born with...

Leo Rising which is interpreted in Chapter One

Sun in Gemini in the Tenth House which is interpreted in Chapter Two

Moon in Sagittarius in the Fourth House which is interpreted in Chapter Three

Taurus at the Midheaven which is interpreted in Chapter Four

Mercury in Cancer in the Eleventh House which is interpreted in Chapter Five

Venus in Cancer in the Eleventh House which is interpreted in Chapter Six

Mars in Leo in the Twelfth House which is interpreted in Chapter Seven

Jupiter in Libra in the Second House which is interpreted in Chapter Eight

Saturn in Cancer in the Eleventh House which is interpreted in Chapter Nine

Uranus in Gemini in the Tenth House which is interpreted in Chapter Ten

Neptune in Libra in the Second House which is interpreted in Chapter Eleven

Pluto in Leo in the Twelfth House which is interpreted in Chapter Twelve

The Planets symbolize various energies manifesting as dynamics of personality.

The Signs qualify or colour these energies, rather like a filter over a light.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another. There are two types of basic Aspect: Hard (Uniting, Opposing and Challenging) and Soft (Uniting, Allying and Working with)

Note: Ongoing planetary influences throughout your life - be they in the past, present or future - as they apply to the planetary positions at your birth, are given and interpreted in ***Year Guides or Monthly***

Guides.

Chapter One - Your Ascendant: Appearance and Persona

****Leo Rising***

You have a winning, confident and usually sunny exterior. But how much your inner being is living up to this outer show can be another story entirely. It is as if you project a successful image, which the rest of your personality has to live up to somehow. This can prove a very effective means of self-development, as long as you do not weaken.

Dignity, and pride in your appearance are therefore significant and important. This commanding impression as observed by others should not be underestimated or overlooked, because it is either convincing and effective or overbearing and affected. And responses from others vindicating your own actions or attitudes are easily believed. So beware of flatterers and bootlickers, for they could give you a false impression of yourself.

All the same, you do need approval and praise from others in order to maintain your confidence - so keep displaying your wares. You tend to attract unusual or unstable relationships that require a certain amount of detachment and freedom from possessiveness. This is in aid of offsetting or challenging the self-possessed or regal air, which you appear to have.

The Sun is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Two - Your Sun Profile, with this in mind.

Alternative Rising Sign? Your Ascendant falls near the cusp of the following Sign. So unless your Birth Time is certainly no more than four to twelve minutes later than what you have give it as, you could be...

****Virgo Rising***

You are usually clean and neatly turned out, or dishevelled in a studied kind of way. You appear younger than your actual age, or at least, your eyes themselves - as distinct from the surrounding skin - are especially clear and unlined-in. This could be because you are quite health conscious. For this reason and also because you want to protect yourself emotionally, you have a preoccupation with things being "just so", characterized by an ongoing criticism of what is happening around you.

The true reason behind this is that you wish to keep a certain part of your own being pure and very much to yourself. It would be better to identify quite what that part is, and look after it, rather than wind up feeling totally isolated and allergic to life's unavoidable impurities. Also, you can appear to be watching every slightest move or detail. Others can find this reassuring or fussy; it very much depends on what the feeling is behind such a perceptive gaze.

Is it critical or caring? You attract sensitive or creative types, who possibly require your subtle attentiveness, or else you can attract lazy, irresponsible or demanding types who can turn you into a slave because you have yet to acquire a modest demeanour, a sense of service, or worthwhile employment - all of which qualities are the hallmark of a healthy Virgo Ascendant.

Mercury would then be your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Five - Your Mercury Profile, with this in mind. [end of alternative rising sign]

Chapter Two - Your Sun Profile: Your Will and Purpose

****Sun in Gemini***

Your essential purpose in life is to make contact with, and connections between, whatever or whoever you regard as important - which is more or less everything! This you do because at heart you find everything interesting in some way or another. You are very alive to the variety of animate and inanimate objects on this planet, and you want to get to know as many of them as possible. As a rule though, "get to know" is all you want to do.

As long as you have a "taste" you are satisfied; getting deeply involved is not really to your taste, and you will flip like a coin from one interest or person to another as it suits you. There may be other parts of your personality/birth chart that need or are attracted to more intimate situations, in which case a more profound sense of human interaction will be asked of you. This can be seen to allude to the well-known dual, even Jekyll and Hyde, nature of Gemini, and the 'Light Twin' and the 'Dark Twin' can be detected throughout the whole of this Profile.

Like the many facets of life that you are acquainted with, you are able to turn your hand to many tasks and skills; indeed, it is your hands, as well as your quick mind and wits, that are your most excellent tools. You are, or should be, the communicator. There is nothing like a Gemini for keeping itself, the world and society in touch with each other and with what is happening.

****Sun in the Tenth House***

Your Sun Profile potentials are most likely to be central to the nature and pursuance of your actual career. In other words, having a professional position is vitally important to you. This can mean that you proceed quite quickly up the career ladder because you know what you want early on.

It could also mean that you get involved with busy professional types who you are either happy to support emotionally, or at some point feel you too should have a place of your own in the world. Rising to a position of prominence is probable, but falling from grace is also a possibility if you ignore your home, family or inner life. Behind all this ambition is your mother who wanted so much to have a successful child. Whether her intentions ultimately coincide with yours is another matter.

****Your Solar Aspects***

****Sun opposed by Moon***

You were born around the time of a Full Moon, which means to say that the dynamics and indications of your Sun Profile appear to run into trouble with those of your Moon Profile. Your heart and mind want one thing, while your habits and needs pull you in the opposite direction. This results in your being split, between say, creative opportunities and family duties, or of always having someone or something opposing your wishes or affronting your sensibilities. Behind all this split, the cause could be having parents who are or were very different from one another, who even oppose one another. And so as a child you got split trying to please or relate to two extremes, sometimes feeling like 'pig in the middle' as you vainly tried to bring them together - or you were forced to side with one and oppose the other.

Every so often, it might seem that one side of you is cancelling out the other. Basically, you have the task of learning to take a back seat when things are against you, and of going all out when the way is clear. Also bear in mind that others will find you hard to relate to at times when either you appear to be living in two camps, or you blame the side of yourself that you cannot cope with upon the other people. Like it or not, you are working towards gaining a profound grasp of life's extremes, with a well-rounded personality as your reward.

****Sun working with Mars***

With a bit of conscious maintenance or attention, you find that you have quite a strong and resilient nature. You are built for action, and as a rule you have no trouble getting on with the job in hand. When you are decisive and forthright, others pick up on this and respond favourably to it. You know what you want and therefore pursue your aims in an unfettered way. Bear in mind that not everyone has this drive, and that they will sometimes look to you for leadership.

****Sun allying with Jupiter***

There is a supremely positive dimension to your personality that bestows both wisdom and good luck upon you. You have an essentially benign and philosophical nature that attracts funds and opportunities, help just when you need it, and people in foreign parts who are well-disposed towards you. The paradox is that because you can so easily conceive of an easier life, you tend to let negative matters build up to a point where you then have to use your luck in earnest.

****Sun uniting with Uranus***

However, in respect of much of all this you take up a decidedly radical position, and aim to introduce to the world a strong sense of the original and innovative. This could well involve science and technology or metaphysics. You are heavily challenged in all the above-described areas with regard to this revolutionary stance that you adopt, especially by the more conservative elements of society, or even of your own personality. You can be quirky and cranky, and at times downright rebellious, but you are certainly your own person. At an evolved level you become quite a leading light.

****The Sabian Symbol For Your Sun***

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"THREE FLEDGLINGS IN A NEST HIGH UP IN A TREE" - The conditions in which the various aspects of our being initially find themselves, and must prove themselves. **Keyword:** OUTSET. When

positive, the ability to make the best use of the advantages that are naturally present at the start of any venture. When negative, a false sense of security that gives rise to precipitous acts.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

****Moon in Sagittarius***

Your reigning need is to believe in something, and to have the freedom to discover what that is. This need for freedom can be so pronounced in you that you instinctively reject anything that smacks of limiting or restraining you, be it physically, emotionally or spiritually.

Paradoxically though, you can be rather gullible, because unconsciously you are still looking for some kind of philosophy or adventure. Alternatively, you may just as well be atheistic or amoral for that can appear to be a system of belief with absolutely no laws to keep to.

Behind all this, you probably had an upbringing that indoctrinated you in either a dogmatic or free-and-easy way, and so now you fancy the open road, so to speak. Deep within you there lies that gypsy soul, that wanderer, who trusts life purely for the adventure that it is.

However, if your own life's not to disappear into the boundless, some definite philosophy or set of laws to guide you is what you need. This, combined with your natural sense of humour and of life's "story", can make you into a warm and optimistic teacher, the raconteur, or just someone who is wise as a result of being cheerful and understanding.

****Moon in the Fourth House***

Whatever your feelings or needs, you instinctively know how to protect and feed them. In fact, you are a natural homemaker. You exude a home-from-home, hearthside familiar atmosphere. This fosters all domestic and catering talents, be it on a professional or amateur basis. You also have a closeness to Nature. A feel for flora and fauna is in your blood, and you could have green fingers. You can, however, be overly attached to your roots - never leaving the region, or even home, you were born in.

This could amount to a security-blanket syndrome where certain habits and things are clung to - especially in times of stress and unpredictability. Your feelings may be more or less totally bound up or invested in your actual home or family, so that you do not readily express them in external social intercourse. If you are this extremely homely type, then as long as you're happy keeping the home-fires burning, that's fine. But if you are just cooped up on your own, learn to share or express your inner nature.

****Your Lunar Aspects***

****Moon opposed by Sun***

These qualities of your Moon-Sign and Moon-House act as a deep need that has to be met by the conscious and wilful intentions of your Sun Profile. The trouble is that your lunar inclinations will try to eclipse your solar intentions. In other words, your innate habits and dispositions may obscure your more creative view of life. You must fix your attention consciously upon some end that endures, an end to which your emotional requirements must adjust themselves. Eventually, you find that you are then far more able to meet those lunar needs, such as I have here described them.

**Moon allying with Mars*

You do have a very available supply of energy to meet your needs. You possibly take this for granted simply because it is always there as you work and relax with enviable ease. The more aware you are of this healthy balance that you have between your feelings and body energy, the more vibrant and confident you will feel, enabling you to achieve success in your chosen field of endeavour.

**Moon working with Jupiter*

Come what may, you have an innate faith in life and that things will work out for the best. Because of this sense you have that caring and believing are an excellent combination, there is very little that you cannot make come out all right in the end. You also have green fingers - and maybe even the 'Midas Touch'.

**Moon opposed by Uranus*

Now a major theme of your emotional life is one of your becoming progressively more cool and detached about your needs and feelings. However, until you have made some headway in this respect, you are prone to definite, even violent, mood swings. This is caused by your being wrapped up in your emotions one moment, and then being icily aloof the next. Possibly you feel that there is or was a distance between your mother and father, giving rise to your feeling that they don't or didn't really want or connect with you in some way, and so you zip back and forth between needing and not needing. But in truth this is just all symptomatic of that 'major theme' - getting to be cool and detached. And this can be a roller-coaster ride.

**The Sabian Symbol for the Moon*

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"A CHINESE LAUNDRY" - A service to the community which is not, at least at first, accepted as part of that community - even though it has standards that are higher than average. **Keyword:** SPECIALISATION. When positive, your ability for holding to your own values and customs with dignity in an environment that may actually scorn or ridicule them. When negative, inappropriateness as a result of feeling out of one's element or of being elitist.

Chapter Four - Your Midheaven Profile: Career and Status

****Taurus at the Midheaven***

Your profession involves things of substance, such as the physical body's care and maintenance, any kind of production or management, real estate, finances, building, horticulture or agriculture, etc. You prefer a steady position with assured assets and income to pie-in-the-sky projects. Material status is important to you.

The condition of your Venus by Sign, House and Aspect will reveal more about the nature of your career, as well as the ease or difficulty encountered in pursuing it, (see Chapter 6).

You also have the following planet or planets culminating overhead at the time of your birth. Such planets are said to be in the Tenth House. This further describes your career, status and reputation.

Sun in the Tenth House (See Chapter 2 - Your Sun Profile)

Uranus in the Tenth House (See Chapter 10 - Your Uranus Profile)

Chapter Five - Your Mercury Profile: Perception and Mentality

****Mercury in Cancer***

Your mind is like a pair of feelers or antennae. You pick up all sorts of vibrations and implications sensitively. The problem is that you will probably take them personally and get upset. You may then get in the bind of wanting to know at the same time as not wanting to know. You have a good memory which can do things like recall conversations word for word. Additionally, you have a sympathetic mentality, and the way that you speak can have a "stroking" quality which is very agreeable. With such a sensitive perception as yours, it would be well to cultivate a liking for the truth - even though it might hurt - for that is what you are so capable of sensing. Otherwise, a failure to look at the truth is followed by a failure to recognise it just when you need to.

****Mercury in the Eleventh House***

You employ and improve this mentality of yours by gaining or giving out knowledge and mental stimulation through group involvements. You prefer a class/ workshop situation to just book-learning. And your opinions gain breadth and depth through sharing them. Because your mind flourishes in this way, you are kind of plugged in to the mind of the group itself. So you can become a natural spokesperson, and also be able to maintain a group's goals and principles. You may however attract fickle friends, or be one, through not knowing your own mind. To counter this, you should welcome the fact that you also attract friends with opposing views which challenge your own, making them stronger.

****Your Mercury Aspects***

****Mercury challenged by Neptune***

Your thoughts are fantasy-prone or inspired from a higher plane, and you cannot but help see what lies beyond the logical. But how you manage and express this highly sensitive perception of yours greatly depends upon not just your Mercury Profile, but your personality as a whole. If you deem it proper to stick with scientific facts, then you most probably scorn the mystically-minded dreamers of this world. At the other extreme, you are a mystically-minded dreamer who dismisses reason as a way of explaining everything. As a child you probably had a bold line in tall stories - and you are still inclined to bend the truth somewhat if you feel in a tight spot or if you are just bored with reality. If your tall-stories were received in the right spirit by adults, then you now feel happy with a mind that can fruitfully follow the flight of your imagination. But when such mental sensitivity as you have is denied, you can be vague or convoluted to the point of not making yourself clear when speaking - even though you might think you are.

Chapter Six - Your Venus Profile: Attraction and Harmony

****Venus in Cancer***

For you, love is bound up inextricably with security; affection cannot exist without care. There has to be something traditional and familiar about your partner, a feeling of belonging, an involvement with and acceptance of their family and your own. The love that was or was not forthcoming from your mother greatly affects how much you show and need affection.

Being unsure of mother-love would incline you to cling blindly to a partner. Your sympathetic and tender style of loving should not be under-rated - go on strike if it is, and they will soon come running! On the other hand, beware of your tendency to behave in a sulky manner when reactions to past hurts are triggered by normal emotional confrontations, for this can hatch a game of cat and mouse which is the last thing that you need. You express love and beauty best in a homely, private way.

****Venus in the Eleventh House***

You want to experience these senses and bring this style of loving into an open friendly, possibly somewhat detached and idealistic sphere of social activity. Your Venus-Sign qualities may or may not lend themselves well to this. You very much want your partner to be on good terms with your friends and associates, and to share your social aspirations.

Conflicting aims or social values can spell disruption or death to a relationship. Knowing a lover initially as a friend is a strong pre-requisite to having a harmonious relationship. And the actual meeting of your mate is more likely to occur at a club or some group gathering. Your social sense is quite evolved or future-oriented, but in this respect you are inclined to forget that one person's meat is another one's poison.

****Venus uniting with Saturn***

But your pleasures are not without their price, and your social or artistic involvements are certainly not without their trials. It is as if the love or the value of anyone or anything that you concern yourself with has to be thoroughly tested. You may well grow up to regard yourself as a bit of a loser in this respect and have a poor sense of self-worth and a bank-balance to match. But you must always remind yourself of your sincerity and thoughtfulness, and that what you are learning is simply how to love, in the manner I have described here.

****Venus working with your Midheaven***

You employ the attributes of your Venus Profile as described here in a professional capacity - or if you don't, you certainly should. Your strengths and weaknesses in this respect, either advance or hold you back in your career. In any event, art, grace, beauty, or a sense of harmony is central to your profession.

Chapter Seven - Your Mars Profile: Self-Assertion and Sexual Drive

****Mars in Leo***

You assert yourself best when doing so for noble reasons and through creative means. This gives direction to the hot and fiery streak, which runs through you. You must respect yourself for what you are doing. Without such a noble justification for your powerful push you can be arrogant and domineering.

And so you can either command respect and allegiance from others, or become increasingly involved in a battle of wills with nothing but bruised egos to show for it. Equally, and for the same reasons, the quality of your sex life can either be pleurably steamy, or a stalemate born of unyielding and precious pride.

****Mars in the Twelfth House***

Such as they are, your powers of self-assertion can at times be somewhat repressed and hard to get a handle on. Some deeply seated fear or desire seems to force your hand, despite what you think or want. Experiences of forcefulness from your past - even in the womb or before that - have had a profound effect upon your own sense of effectiveness.

Ultimately this enables you to have a more subtle and psychological idea of what drive and assertion are actually about. You can find maleness or sex confusing or intimidating, although in some cases you can tune into the collective's desires and image or masculinity, and even embody them (e.g. Mick Jagger). More commonly though, you discover that pursuits which serve to benefit others, or rally them to some cause, are more favourable to your subtle energies.

****Your Mars Aspects***

****Mars working with Sun***

Happily, you progressively become more and more conscious of the pros and cons of this situation. Consequently, you are eventually able to win over others to your cause. This support, and the ability to make considerable headway in life, is also owing to the fact that you have the courage of your convictions.

****Mars allying with Moon***

You have a great supply of psychic energy to draw upon; so just about any task can be tackled successfully because you are not likely to flag. "Do more and get more" could be your simple maxim. Unlike people who work and play on nervous energy and are consequently a bit fraught, the relaxed flow of energy that you possess, permits a silent and smooth running engine.

****Mars uniting with your Ascendant***

Whatever the nature of your drive and self-assertion overall, it is quite readily apparent to others. You could come across as quite forthright and audacious - even though you may not feel that way on the

inside. Effectively, Mars would then be seen as being in your First House, which has the following meaning:-

Your Mars Profile is quite apparent in your actual physical appearance or presentation. You put yourself forward quite spontaneously, or you feel pushed forward even though you'd rather not be. This natural assertiveness can be negatively or unconsciously expressed in accidents to your head or face, leaving scars. It could be said that your very identity is what you are fighting for, and this could have been apparent at birth with you bursting out, as it were.

In any event though, you do have undeniable body energy, which needs channelling into some physically competitive activity, sport or martial discipline, such as karate. If you are not quite so aggressive and more pent-up, Tai-Chi, Hatha Yoga or the like are more suitable. In short, you just have to assert yourself; it is finding the right method, measure and motive that is the crucial issue.

****Mars challenging your Midheaven***

You shouldn't have any trouble piling energy into your career, and thereby getting somewhere. However, this same drive rubs family and friends up the wrong way - and even those in authority. The conflict that this creates may not matter to you now, but at a critical stage when you need emotional support - it could be unavailable.

Chapter Eight - Your Jupiter profile: Faith and Understanding

****Jupiter in Libra***

Your philosophy of life has mainly to do with your sense of justice, as you experience it in a personal way within your one-to-one relationships. It can also come from how you perceive it, or the lack of it, in society in general. In other words, your faith in life rests upon a belief that justice exists. If it does not - or it appears not to - your faith diminishes.

Conversely, when you are aware that justice prevails, you feel happy to go on. What you have to bear in mind is that justice is not always apparent on a surface level. By its very nature, justice often has to be sought - be it in your mind or a court of law.

****Jupiter in the Second House***

You like to have something physical to show for your beliefs. So in proportion to the strength of your faith, you will accumulate money and possessions. The danger here is that this can become a substitute for faith itself. For example, you could amass lots of things around you but feel hollow inside. The wisdom that you are after, or already possess, is that of using your flair for attracting wealth to guide and assist projects and people that are in need of it.

****Your Jupiter Aspects***

****Jupiter allying with Sun***

By and large, you fall into the positive category with respect to your faith in life and the luck that it attracts. There is a danger of your taking it for granted, simply because it comes so naturally. All the same, your beliefs are the mainstay of your existence and vitality, and others can learn much from them.

****Jupiter working with Moon***

Your emotional background, whatever else it might have lumbered you with, has conferred upon you a sound moral sense. This guides you, more than you know, in all your moral deliberations. For when you truly feel it, you believe it. In other words you are blessed with being able to trust your positive feelings.

****Jupiter challenged by Saturn***

The establishing of faith in life will not be without some quite severe tests. This could take the form, possibly from very early on in life, of some type of rigid faith that either forces you to stick with it through thick and thin, or, has put you off believing in anything other than what you can touch and see. You are having to find a balance between faith and reality, and to discover a vision of a better situation and the practical means of getting there.

****Jupiter allying with Uranus***

Very fortunately, you have awareness, that there are systems of belief which are liberal, non-judgmental,

and that make provision for human nature rather than merely dictate to it. This healthy attitude of yours - not to mention a great sense of humour - attracts the faith and interest of others who bestow funds, guidance or lasting friendship upon you.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

****Saturn in Cancer***

You are learning the true meaning of care and sympathy, striving to gain an objective view of emotional involvements, but without becoming uninvolved altogether. Initially, the need to learn such lessons may manifest as a fear of emotional experience or expression, possibly born of coming from an emotionally dysfunctional family, or of sometimes being made to feel emotionally alienated. Along the way you are drawn, consciously or unconsciously, into becoming involved in acutely emotional relationships and situations.

So as time goes by, you should gradually and eventually acquire an objective receptivity and the means of emotional expression that enables you to function well in the world of feelings, and to use such genuine but hard-won emotionality and inner strength to help others - possibly even in a professional capacity.

****Saturn in the Eleventh House***

These lessons and tests focus largely upon friendships and group involvements. In this way you can deal with reserve and self-doubt by objectifying them. A difficulty in forming close associations would indicate that you are trying to keep too much to yourself. It is through perhaps just one close friendship that you may dissolve many blocks and a sense of stiffness.

A trusted friend is a symbol of trust in yourself. Another lesson here is that of learning to work in co-operation with others. In order to do this, it is necessary to accept your own ordinariness, for any elitism could be interpreted as a disguise for your own self-doubt. Out of either of these scenarios you yourself can emerge as the trusted friend or group co-ordinator.

****Your Saturn Aspects***

****Saturn uniting with Venus***

You might vainly seek pleasures or distractions in relationships as a way of diminishing or avoiding the difficulties mentioned here. Or you feel that in some way you are not allowed to enjoy yourself. The fact of the matter is that you can only go out to play to your heart's content when you have performed your duties, as I have here described them. Or alternatively, you find that taking pleasure in your work is your ultimate goal.

****Saturn challenged by Jupiter***

Be aware that the brighter side of life is something that you do have to cultivate. It's not that you're without joy. It is more likely you were socially conditioned by someone or something that had little joy in them. Be that as it may, you still have to lighten up somewhat, which will mean taking a chance on your intuition, and letting the devil - whatever you fear - take the hindmost.

****Saturn working with your Midheaven***

You have it in you to hold a position of authority. Looked at another way, you sense that there is some worthwhile position earmarked for you, and that you will have to work to get there. And so you do.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

****Uranus in Gemini***

You belong to a generation (born during the early to late 1940's or between April 2026 and May 2033) whose intention is to reform thinking patterns, and the use of the written and spoken word, or to institute social change through the use of the written and spoken word. Your generation also aims to bring the fruits of science, technology and metaphysics into the everyday sphere of human activity.

****Uranus in the Tenth House***

These changes, and advancement through technology or alternative disciplines, are likely to find their way into your life via your profession or reputation. So your career could involve electricity, science, mass-media, aeronautics, or anything that is innovative or future-orientated. However, you may at some stage have to "invent" your position in life as ordinary methods and channels either fail or bore. And in the process of discovering your unique professional niche, many avenues of expression may be experimented with - so a chequered career is likely.

Advancement can be quick, sudden or erratic - and friends or teamwork could play a significant part. Freedom and rights may well be a professional issue - for instance, trade unionist, freedom fighter, social activist, consumer watch-dog, etc. The occult may also figure in your career, pointing the way with astrology, magic, or psychology. Your mother figures strongly in how you see yourself in the world, for she either left you very much to your own devices, or caused you to react against her and take a rebellious public stance.

****Your Uranus Aspects***

****Uranus uniting with Sun***

At no cost do you want to be deprived of your ego's right to dance in its own light. In other words, ideals and social principles are all very well for you, but in the end you see yourself as your own rule-maker and rule-breaker. You are becoming increasingly conscious of the fact that the only true determinant of what life is about is you - or rather your self-awareness. You are very much ahead of your time in some ways, but be careful not to allow such living in the future to distort what's actually going on for you right now.

****Uranus opposed by Moon***

You feel all these forces for change and liberation with such intensity that it is quite difficult for you to maintain emotional stability. It is as if you take it all personally. Remind yourself that these forces are both intelligent and are for the good of all. Cultivate coolness; be loose and open to the promise of the future, and avoid tucking yourself away somewhere "safe", for this would only attract the very upheaval you feared. Positively speaking, you should be able to reassure others when they are traumatized or stressed by changes.

****Uranus allying with Jupiter***

Fortunately, whenever this need for change or freedom arises, you are guided by what has been aptly called your "Well-travelled Soul". This means that you have the innate ability to recognize when change is necessary, and the positive advantages it would bring. Consequently you conduct changes in a smooth and optimistic way that benefits both yourself and others too.

Behind all of this you possess a fairly laid-back philosophy of life. The only possible danger here is that of your turning what is essentially a lucky streak into a complacent one.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

****Neptune in Libra***

You belong to the Neptunian generation born between 1942 and 1957. As this generation came of age, the whole Libran realm of love and marriage, art and music, and society in general, came under Neptune's subtle spell. This gave rise to an increased sensitivity to relating and sexual equality, with confusion and soaring divorce rates not far behind. Whether or not you see yourself as an active part of it, this was also the "love" generation who marched for peace, gathered in great numbers at music festivals, experimented with psychedelic drugs, and embarked upon a more universal quest for spiritual meaning - or for an escape from mundane reality.

****Neptune in the Second House***

You are sensitive about your self-worth and earning ability. On the other hand, you could be sensitive to money matters by having a sixth sense about them. But it is more likely that you find it hard to grasp or hold on to what you actually own. This can mean that you are open-handed and do not care too much about money, or that you are forever depending on hand-outs and maybe have a "something will turn up" attitude. Or else when you have money it just slips through your fingers; you are also open to financial deception.

What is going on here is that you are having to settle for the fact that such matters are in the "lap of the Gods" and you should accordingly accept what Providence delivers or takes away. The more you can tune into the mystery of where it all comes from and goes to (which has something to do with believing that you will be provided for in proportion to your spiritual worth) then the fewer financial problems there will be.

Personal capabilities which are products of your sensitivity or imagination would fall into line with this - such as the arts, photography, dance, healing, psychism, or anything spiritual.

****Your Neptune Aspects***

****Neptune challenged by Mercury***

The negative dimensions of these situations, and others, tempt you to rationalise them away, rather than see the truth of the matter. You swing between thinking the best of someone one moment, and regarding them as a waste of your time the next. In turn, you either imagine that you are well thought of, or that you are being unjustly slighted. Indeed, you are having and trying to tell the false from the true, but until you locate your own blind-spot, it'll be a case of one step forward and two back. But this could be your way of finding out.

****Neptune working with Pluto***

You are helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

Chapter Twelve - Your Pluto Profile: Power and Transformation

****Pluto in Leo***

You are a member of the Plutonian generation (1937 -1958) which, apart from many other things, saw World War II and the advent of nuclear power and the atomic bomb. All this shifted the world into a process of transformation from which it can no more retreat than a nuclear power station can be closed down overnight. This transformative power which forces us to contact the hidden origins of all things is now unleashed, and your personal role in this global psychodrama is revealed below.

****Pluto in the Twelfth House***

You have powerful hidden resources, which could also be repressed. This is either because you would abuse them if they were too readily available to you, or because you feel that if they were unleashed, anti-social or even evil forces would spew forth. All of this might be totally unconscious, but the fact remains that eventually, voluntarily or otherwise, this power is drawn out in the form of some crisis or psychological process.

Until then you can feel as if you are carrying the weight of the world around, giving rise to work difficulties, absenteeism, not getting along with co-workers, or something more ominous. Essentially, your personal process of transformation is concerned with changing the state of those things, which oppress humanity as a whole. But you have to begin by mucking out your own closet.

A fear of death itself could be the prime occupant, possibly stemming from an early experience - in the womb even. Once you have begun to vanquish some of these demons, then angels in the form of psychological or spiritual insights will take shape to assist you further in your delving and healing.

****Your Pluto Aspects***

****Pluto working with Neptune***

You know that we are all in the same boat, and that it is a case of sink or swim. So you look around, smile at your fellow human beings, and pull together!

A Purpose to Your Life

From reading your ***Personality Profile***, hopefully you will have become or been made more familiar with the fact that there is a purpose to your life. Quite possibly you knew this already, and this has confirmed it, or made you look at it differently. You may also have noticed that not only is there a purpose to your life as a whole, but that there is a purpose to every part of your life as well.

Furthermore, for every purpose of yours, you may see that you have positive traits and abilities to achieve it. Any negative traits are only the result of your having diverged from, or being unconscious of, that purpose.

And the relationships and circumstances of your life have been attracted entirely by these positive and negative qualities - like the poles of a magnet. For it is a scientific fact that that is what a human or any other being actually is: an electromagnetic being - picking up good and bad vibrations.

Astrology is based upon electro-magnetism and vibratory resonance.

I hope that through this Profile you will have gained, and will continue to gain, a sense of satisfaction and control through being more and more familiar with the power and purpose of your life and personality.
