The Inter-Aspects - The Chemistry Between You Both

This Relationship Profile defines and interprets the interactions or **INTER-ASPECTS** (angular relationships) between the Planets in one person's birth chart and the Planets in another person's. The interpretations mainly focus upon emotional/sexual/romantic relationships, but friends, family and business partnerships are also covered. Generally speaking, the Inter-Aspects reveal how each person makes the other feel, and what each brings to the other by way of worth, experience and opportunity.

As a rule, a Planet referred to in an Inter-Aspect's interpretation corresponds to the person whose Planet it is. For example, with the Inter-Aspect **A's Moon Conjunct(uniting with) B's Saturn**, where it says the Lunar person or the Moon, it means Person A; when it says the 'saturnine person' or just 'Saturn', it means Person B. However, there are often exceptions to this rule because of Interchangeability (see below). For the same reason, each person is sometimes referred to in terms of the role they are playing in the relationship that corresponds to one of the Planets involved, but not necessarily the one that is technically theirs.

These Inter-Aspects are divided into four general types:

1. **Key Connections**
2. **Relationship Challenges**
3. **Relationship Strengths**
4. **Socio-Cultural Interactions**

Also, as you read them, the following should be noted:

'Close Ones'

Given to the far right of each Inter-Aspect name is a figure (in degrees and minutes of arc) denoting how close that Inter-Aspect is. Usually, the closer it is to 00°00' the more strongly that Inter-Aspect will influence the relationship as a whole, whereas the nearer the absolute maximum of 8°00' the weaker will be its effect'. Sometimes, even when the Inter-Aspect is 'challenging' or technically 'negative', a Close One that is very close, like less than a degree, can be felt to be positive simply because the two people 'fit' so closely. Whenever an Inter-Aspect is actually classed 'Close One' this is because it forms a tight connection (3 degrees or less). Such interactions compose the core of your relationship, be it good or bad. As a general but not absolute rule, no less than around a third of all the Inter-Aspects should be 'Close Ones' for a relationship to be called 'close'.

Remember that neither the classification 'Close One' nor the 'degree of closeness figure' will appear in the Interpretations in the BOOK because they are strictly to do with the Inter-Aspects between the two people in question, and as such it will only appear in a whole Profile on-screen, like this, or in the Profile Index, for that couple.

'Birth Time Sensitive'

This means the interaction will be technically correct only when the birth times are accurate to within fifteen minutes. Also, if a birth time is only to within several hours, then any interactions involving the Moon of that person should be regarded as possibly being unreliable.

Double Whammies (identify these yourself)

When any Inter-Aspect, along with its interpretation, is repeated - because that Inter-Aspect goes both ways, for example, 'A's Moon Conjunct (uniting with) B's Pluto' followed by 'A's Pluto Conjunct (uniting with) B's Moon' - then it affects the relationship very strongly.

Interchangeability (identify this yourself)

With any Inter-Aspect, individuals can swap roles in relationships, due to psychological projection, cultural and gender roles, individual status and inclination, etc.. That is, Person A can be playing the part of what appears to be

The One Golden Rule

No one interaction or Inter-Aspect can make or break a relationship. In a healthy relationship, there is always a strength to deal with a stress or a strain. Through time and love, challenges, if met, can always be overcome. Needless to say, many relationships do not turn out to be long-lasting or permanent, but they are there for a reason - and the Inter-Aspects will tell you what that reason was.

The Chemistry Between You Both - Here Follows Your Relationship Profile...

IMPORTANT

Remember that the name of an Inter-Aspect may be written here the other way around to how it is given in the BOOK. For example, an Inter-Aspect given here as **A's Saturn Conjunct (uniting with) B's Sun** ♄♂☉ will be given in the BOOK as **Sun Conjunct (uniting with) Saturn** ☉♂♄. Also, the A's and B's are not included there because they are individual to the particular relationship as given on-screen or in an Relationship Profile Index.

1. Key Connections

These are usually the most powerful and dynamic points of interaction between you, but do not be put off if you find little or none, as other interactions will provide strong connections. They can be either harmonious, difficult or a bit of both - depending on the Planets involved.

A's Mercury Conjunct (uniting with) B's Venus 07°55'

Creative Rapport

If the two of you do not enjoy talking together, then there must be something really wrong. Even then, you are drawn to discussing 'love problems' anyway, so on one level or another, this interaction is always getting what it wants. This is apart from the fact that you do like your conversations to be pleasant and harmonious, and so may gloss over the nastier or more difficult issues that arise. On the other hand, it is your combined awareness of what looks and sounds right that is one of your stronger assets. So notwithstanding the tendency to gloss over, you can be an adept pair at finding a pleasing solution, one which is agreeable to most people concerned. As such, on a professional or merely social level, you excel at being diplomatic and discreet, and so should be welcome or in demand. You could also be creative together in some way - with one of you providing the appeal and aesthetics, and the other the interest and technical know-how - you may alternate these roles quite easily too.

A's Venus Conjunct (uniting with) B's Pluto 04°08'

Self-regenerating Love

This interaction exercises a powerful pull towards each other, but to quite a degree it is unconscious. This means to say that the two of you would probably not realize how deeply involved you are with one another until later. Feelings of possessiveness or jealousy surfacing could be signs of this depth, especially on the part of one of you, who will also try to make the other person 'fit' their emotional requirements. From their intensely emotional and possibly isolated viewpoint, the other seems to give off a take it or leave it attitude, which is not really the case, even though the other would sometimes like to think so. Be that as it may, there is a quality to your relationship that keeps on bringing you through one crisis after another, and renewing yourselves and the relationship itself - sometimes in spite of yourselves. The sexual dimension to this interaction is also deep, and intense. Sexual feelings and activities go through significant changes as you are both inevitably, and sometimes painfully, made aware of what works for you - often through a process of occasionally getting stuck with what doesn't! Money can also be a very significant or even bargaining factor in your relationship. The fact that this bond is so powerful and deep is what makes you endure these deep changes and feelings. Unconsciously you are both aware that something won't let you go until it is satisfied, and then it won't matter. Till death us do part?

A's Venus Opposition (confronting) B's MidHeaven Birth Time Sensitive 05°54'**Home Beautiful**

Whether it is in the home in the literal sense, or in the sense of one's inner or private world, this interaction confers upon one or both of you an aura of beauty and social grace. You feel happy and comfortable with one another, as if you were harmonious family members - and indeed you may actually be so.

A's Mars Conjunct (uniting with) B's Neptune 05°22'**Subtle Sexual Interplay**

This interaction can lead you as merry dance - and sometimes not at all merry. In fact, 'dancing' makes a very apt metaphor for the interaction between these two planets. First, who is leading who? Owing to current gender confusions and the contemporary styles of dance that reflect them, very few people have a clear idea of this. And in families too, the hierarchy of leadership is often in disarray. But with this interaction between you, some kind of rule had better be established or a lot of bruised shins and trodden-on toes will be the result. If yours is a sexual relationship, the range of shades and preferences is endless. Suffice to say that it can go from the extremely exotic to the peculiarly dissatisfying, from the intense to the infrequent or non-existent. Back to the dance - what music are you trying to dance to? This means, what is the theme or philosophy, if any, of your intimate relations? Generally, it is about sexual refinement, which along the way finds the sensitivity and peculiarities of one of you reacting with disgust, evasion or confusion to the other's hungry and hard pushing. Resort to artificial stimulants such as drugs or pornography can also enter the picture. Ideally, the pursuit of some spiritual-sexual discipline such as **Tantra** or Taoism is recommended. As far as non-sexual relationships are concerned (or the parts that are not to do with sex) this interaction makes for a subtle interplay between the two of you which can have many expressions, but probably the performing arts, healing and yoga are the major ones. In any event, finding a creative and positive way of channelling physical and psychic energies together in a positive way is the goal to aim for. Without aiming 'high' in this way, this interaction can sink you quite low with deception, listlessness and frustration.

A's Ascendant Opposition (confronting) B's Mars Birth Time Sensitive Close One 00°00'**The Getter And The Got**

Although this can bring about a quite immediate sexual reaction to one another - or simply a reaction - it can also lead to actual hostility. One of you, the 'got', has unconsciously attracted someone else, the 'getter', who will play out their own unexpressed assertive or aggressive qualities. If the 'getter' is a male and the 'got' female, the above can run particularly true to form, even with the man becoming violent if the woman is notably passive or victim-like. At a less extreme level, the 'got' can simply introduce the 'getter' to a new or different social scene, which they could react or respond to in any number of ways. The 'getter', for their part, can stimulate the 'got' in some way, either sexually or physically. This could lead to the 'got' becoming more aware of how they put themselves across. In fact, this is the important key to the aspect, because if the female is good at asserting herself, she gets a positive reaction from the male, but if she is weak or ineffectual, then she could get the negative reaction previously described. But it can also work the other way around - if the male is not assertive enough, and the female is, she might give him a hard time. This mirroring effect is very important to recognize because it can make the difference between one or both people reacting hotly to the other, and simply being more aware of their right to be who they are, which in turn can result in them being more direct in stating their case.

2. Relationship Challenges

These are the interactions that are most likely to produce friction and disagreement - some more than others as the interpretations point out. In fact, they often explain why you were attracted in the first place because they define the deeper reasons for your coming together in that they force both of you to become more self-aware and improve your relating skills or ability to love and be loved. Too many of these Challenges however (in comparison to the Relationship Strengths below) can make it unacceptably uphill and lead to separation. But it would still have the potential for self-growth.

A's Saturn Square (challenging) B's Sun Close One 00°50'**Two Rulers**

You are inclined to trigger each other's doubts and defences - so this can prove a difficult aspect to your relationship. It is rather as if one of you is the 'monarch' and the other is 'president/prime minister'. You both have or want a sense of power and position, and feel that the other threatens it in some way. The 'monarch' is brighter and more outgoing in the use and expression of themselves and their way of life. The 'president' is more conservative, traditional, and toes some sort of party line. Possibly the common ground that you do have is one or each of you wishing to maintain your individual integrity. And so it would be fruitful to earn each other's respect through showing that you both stick to your principles - even though they are very different - and defer to the other if they have honourably proved their point. All this will take time, which poses the necessity of there being a commitment to a duty that goes beyond your ego conflict - like being parents, for example. Basically, a balance needs to be struck between the 'monarch's' expansive and generous nature, and the 'president's' restraining and cautious one. You both have an important contribution to make to whatever is the substance of your relationship, but the 'monarch' is being forced to learn that restrictions can have great value, and the 'president' to trust that matters will unfold creatively and should not be controlled too much. Failing to understand these apparently opposing laws of good 'government' can cause one or both of you, or the relationship itself, to fall from grace.

A's Sun Square (challenging) B's Neptune Close One 00°37'**Fascination And Illusion**

Your relationship can start off as a fatal fascination but eventually encounter disillusionment - or if not dealt with, even end in it. This is because one or both of you, on first meeting the other, will present their most attractive and glamorous idea of themselves, blended with whatever the other expects this to be. This is a bit like Sunshine sparkling on and off the surface of water. But come nightfall there can be just a dull grey limpid mass - that is, sooner or later the mirage evaporates and the real and vulnerable person remains. Unless the one of you is some kind of spiritual master (in which case they wouldn't have been taken in first of all) they then find that what they thought was a knight in shining armour or a damsel in distress, is by comparison rather pathetic. But, continuing with the Sun-reflected-on-the-water metaphor, they are really seeing what is pathetic about themselves. But again, both of you will most likely try to bluff your way out of this uncomfortable realization, which is when the real trouble begins. One of you takes on the role of the one in charge and can make the other's life a misery by treating them like a slave, fool or fall guy. If not doing so already, then one or both of you may seek solace in some form of escape from the oppression - like alcohol, drugs or work, or eventually from out of the relationship all together. However, this could prove difficult, because both of you are addicted to your own illusions of strength and weakness, which this interaction so uncomfortably re-presents. Consequently, all manner of deception (self, unconscious or otherwise) can creep into the cracks that this interaction opens up. So unless some rigorous creative, spiritual or therapeutic discipline is, or already has been, embarked upon by both of you, your relationship will become a leaky vessel that has only one fate.

A's MidHeaven Square (challenging) B's Sun Birth Time Sensitive 05°04'**Territory Versus Respect**

Although at first the MidHeaven person can find the Sun impressive and fun to have around, eventually they experience them as a threat to their professional position or domestic set-up, something which the Sun person may have seen merely as opportune or convenient. So unless they recognize and respect that it is lot more than that for the MidHeaven, they could wind up being unwelcome - quite suddenly. Then again, they may not have been admitted in the first place. On the other hand, the MidHeaven could forestall such upset by laying down some ground rules at the outset - but then it would probably be the Sun that has to make them aware of them. So that territorial issue persists, whatever the case.

A's Jupiter Square (challenging) B's Moon Close One 01°20'**Emotional Excess**

Although there is a measure of kindness and consideration between the two of you, it is inclined to become a case of emotionally indulging or doting on one another, or conversely, a vague discord caused by the phoniness of such misplaced 'care'. In truth, one of you is after security and home-life while the other is after freedom and adventure - but these can be interchangeable. And so a false sense of security or togetherness can grow out of this. It is as if this interaction happens to make it known to one or both of you that what you have been brought up to need or believe in is not actually appropriate for you as individuals. This is not a particularly difficult challenging aspect - but it can cause emotional confusion. Exploring what you both really need or believe could reveal that you are more in tune than you thought - or a lot less, which is possibly why you'd be disinclined to do so.

A's Moon Opposition (confronting) B's Uranus 04°42'**Emotional Awakening Through Apathy**

This is not an interaction that you should invest in for the future, or at least, expect to have a conventional lifestyle with. One of you needs security and comfort, family values and emotional receptivity. The other wants change and excitement, friendship values and mental freedom. So it is no surprise, or rather it is, when the 'needy' person discovers that after finding the 'cool' individual such a turn-on that they are also unpredictable and hard to keep to anything solid or routine. Furthermore, the 'cool' person is liable to react in this way to an even greater extent when the 'needy' person tries to mother them or be mothered by them. The sooner the 'needy' person realizes that they unconsciously became involved for reasons of freeing themselves from any such blind and immature security needs then the less likely they are to have such a hard time of it. The 'cool' individual, for their part, should endeavour to go a bit more gently on the 'needy' person's feelings, and consider the possibility that their reason for allowing themselves to become involved are the opposite to theirs - that is, to recognize that their blows for freedom are more to do with a fear of emotional commitment. It is also possible that one or both of you need to search for and explore something less cosy and more unusual in a relationship. Ultimately, you are in the relationship to show one another that the combining or confrontation of freedom and security takes a great deal of emotional honesty on both your parts. Without waking up to the 'emotional clearing' that this interaction poses, you will find the extreme ups and downs that you experience very hard to endure or understand.

A's Neptune Square (challenging) B's Moon 06°14'**Emotional Confusion**

The issue here is one or both of you having personal boundaries that are defined too strongly or not strongly enough. Consequently, there are three possible scenarios. If you both have vague ideas of where you begin and end as individuals, you then accommodate each other only too well, in a rather indiscriminate fashion. This invites emotional confusion, as you tend to drag one another down to the lowest common denominator of living standard. What allows this to happen is the fact that in the first place you kind of melt into each other, fostering the illusion that you are closer than you actually are or were. In this case, one or both of you has to find the strength or help to make a stand, possibly having to be quite ruthless in the process. The second case is when one of you is quite open emotionally, and the other is relatively closed. The open one gets under the closed one's skin, in spite of themselves, forcing them to be more emotionally forthcoming. Unfortunately, this is unlikely to be done consciously, but more in the way of being victim-like and needy, compromising the other 'stronger' person in the process. But the stronger person should read this as having to be more compassionate. The third case, when both of you are quite separate as people, would mean that something occurs or will occur that forces you to be more open about your individual vulnerability. Without dealing with whatever your scenario is in the constructive ways suggested here, your relationship could go from confusion to delusion, from misconception to rank deception.

A's Saturn Square (challenging) B's Mercury 07°14'**A Communication Block**

Often, when putting forth their thoughts or ideas, one of you, the 'student' seems to have to go through an examination under the other person. Literally or metaphorically, this is a student/teacher relationship. In an emotional relationship of any kind, this can obviously give rise to an inferior/superior set-up, with the resentments and disdain that accompany it. If however, the 'student' can appreciate that their ideas probably do need to be made more practical, or put into practice, and that the 'teacher' has a point, then this would make a potentially negative interaction quite fruitful. Additionally or alternatively, the 'student' may need to take on board the necessity of using their intellect less and their feelings more. The 'teacher', on the other hand, like any good teacher, has to find a way of saying what they have to say in a way that does not make the 'student' feel stupid or inferior. Ironically, the 'student' can see the 'teacher' as being stupid because they appear dull and slow, unimaginative and overly conservative. The 'teacher' should seriously consider (their forte, after all) whether the 'student' has a point here, because one day that 'student' might get so fed up with having their ideas squashed that they find a new teacher! If both of you can take these points on board, you can have an intellectually serious and mutual learning relationship, rather than a cold and dry one.

A's Pluto Square (challenging) B's Mercury 05°02'**Mental Interrogation**

One of you, the 'logical' person, has a perception of life that is the more practical and 'safe' in comparison to the other, 'delving', person's probing or psychological way of looking at it. In the face of the 'delver's' X-ray gaze the 'logical' one therefore finds that they have to dodge and weave and consequently appear even more superficial and 'reasonable'. On the other hand, the 'logical' one may just refuse to budge from what they see as their more sensible standpoint, branding the 'delver' as being too obsessed with always wanting to get to the very bottom of things. The 'delver's' response to this will be to use every means at their disposal to influence the 'logical' one's thinking with their propaganda of psychological or occult values. Not surprisingly, this is not an interaction to inspire trust - on the contrary, it can lead to 'paranoia' on one or both of your parts. To resolve or prevent the breakdown in communication that this can create, the 'delver' should honestly look at the possibility that the reason they want the 'logical' one to see things their way is that they are not entirely convinced of it themselves. The 'logical' one, apart from getting the 'delver' to lighten up a bit, should meet them halfway and take a deeper look at themselves and the meaning of life. Who knows, they may then be able to give the 'delver' a spot of their own mental medicine.

A's Venus Square (challenging) B's Mars 06°15'**Sex Objects**

A quite immediate and very exciting feeling is evident from early on, even on first meeting. A thoroughly enlightened person would recognize such a sensation as one of Cupid's tricks, and steer clear. However, seeing as there are very few thoroughly enlightened beings around, and that there are probably other more valid agendas or interactions between the two of you, you succumb. Yet the fact still remains that this aspect does create sexual attraction, but in itself, there is little else. One might say this has a 'one night stand' quality about it, for the sex may be gratifying on a physical level, but the lack or intrusion of finer feelings finds it very empty or crude. So what starts out as attracting can end up repelling. Usually one of you will lose interest first and look elsewhere, but the other person may have felt uncomfortable beforehand but carried on succumbing in spite of such feelings. If there are indications elsewhere of the mutual understanding that this interaction definitely doesn't provide, then you will both probably put such impulsive folly down to experience, or the lack of it. One of you could then learn to refine the expression of their desires, while the other learns to recover from any bruised sensitivity, hopefully teaching them how to be more emotionally resilient.

A's Mars Square (challenging) B's Venus 03°48'**Sex Objects**

A's Uranus Square (challenging) B's Venus 03°15'**Rude But Irresistible Awakening**

One of you, the 'awakener' gives the other person, the 'lover' a sharp shock as to what is their real worth and attractiveness. Quite unceremoniously, they will expose what is beautiful or ugly, talented or dull, about their partner. And all of this their partner finds quite irresistible, even though it gives them such mixed feelings about themselves and their other half. It is almost as if the 'awakener' is taking any feelings they have of alienation out on the 'lover'. It can be seen why this peculiar reaction exists between the two of you in the myth of the god Uranus and the goddess Venus. Uranus was the 'god of gods', Heaven, who lay across Gaia, the Earth, and Creation then came about. One of his sons, Saturn, strongly disapproved of his random way of ruling and deposed him by scything off his sexual organs and casting them into the sea. From the blood and foam of his severed genitals Aphrodite ('born of foam') or Venus was born. So you can see where those feelings of alienation came from - especially of the sexual variety! But the symbolism of this is that Uranus wants his power back and Venus wants the freedom to wield it. So Uranus, the 'awakener' thinks 'If Venus, the 'lover' is still around after so much fast and loose treatment, then they must love me'. Unfortunately, this does not work because all the 'awakener' is getting from the 'lover' is the measure of their lack of self-love, which perfectly reflects the 'awakener's' own lack of self-love. All of this is important to understand, for it explains why you are so attracted to one another but fail to mesh in so many other areas of your respective lives. In a quirky way, you are both learning one of love's most important lessons: You can only truly love someone as much as you love yourself. If this relationship is handled right - which means not expecting it to be predictable - then you can both go some way towards loving more the unusual or outcast in yourselves and each other.

A's Jupiter Opposition (confronting) B's Mars 07°53'**'Holy War'**

Initially, there can be the feeling or 'energy' between you that you are together in order to get or gain something. So there can be quite a lot of activity, coming and going, or just horsing around in your relationship. However, it may be a case of more energy than purpose as it eventually dawns on you that you are possibly espousing different causes, motivated by different objectives, or even fighting under opposing standards. But this 'dawning' will not happen until one day you realize that you both, literally or figuratively, share the same address but lead different lives. How uncomfortable this realization is depends upon the level of understanding you have between you that is indicated by other interactions. For any number of reasons, you may choose to stay together while leading your own lives. If there are certain commitments, like family for instance, then this would be a sensible, if not totally desirable, expression of this interaction. Failing this, a kind of jihad or holy war could be your ongoing lot. The freedom to roam is the keynote of this interaction. Whatever you each make of the place of this in a relationship, one or both of you will inevitably go their own way - with or without the other's blessings. But this could actually be the elusive or primary purpose of this interaction: for one of you graciously to grant the other freedom, or at least help them to discover it.

A's Ascendant Square (challenging) B's Jupiter Birth Time Sensitive 04°45'**AS□♃*****Having To Walk Your Talk***

One of you is inclined to judge the other's moral or spiritual standing purely by their character and manner of expression. Understandably, that person can be offended by this, seeing such as sanctimonious and hypocritical. More constructively, this person can force the other to walk their talk if they wish to be taken seriously. However, what can follow upon this is that if they do walk their talk, then that person who forced this will have to look to the ethical or spiritual dimension of their own life.

A's Ascendant Square (challenging) B's Saturn Birth Time Sensitive 05°34'**AS□♄*****Adult Versus Child***

One of you, who we'll call the 'adult' because they feel more worldly and responsible, will find the personal manner of the other, the 'child' offensive in some way - it'll be too immature, egocentric, showy, impulsive or anything which the 'adult' feels is not good 'form'. Because of this, the 'adult' tries to discipline or belittle the 'child' into behaving or expressing themselves in what they see as a more appropriate way. Naturally enough, the 'child' finds this stifling, painful and/or boring, and will most probably step up the very behaviour that got the 'adult' going in the first place - either that or sulk. Needless to say, a good amount of love and understanding, hopefully provided by other interactions, is needed to make each of you realize that the other has a point. The 'child' does need to re-form their manner of expression and how they physically hold or present themselves if they wish to make a better impression, whereas the 'adult' should focus upon exactly why it embarrasses them or makes them feel uncomfortable - maybe they should take a leaf out of the 'child's' book of self-expression, or heed the same criticism they themselves are dishing out. Failing all of this, this interaction is decidedly separative.

A's Pluto Square (challenging) B's Ascendant Birth Time Sensitive 06°16'**♇□AS*****The Manipulator And The Manipulated***

Initially, and maybe for quite some time, your relationship (or a part of it) has to go on in secret, with few or no-one knowing about it. As such, this imposes the pressure and the excitement of forbidden fruit upon your coming together at any time. When and if you are able to 'come out' and show your face to the world there may still be a deal of trouble stemming from conflicting or awkward circumstances, and possibly from someone else who is involved with one or both of you in such a way that is not easily got out of. So although this compulsive sort of interaction is the type that actually forms a relationship in the first place, it does tend to get you off on the wrong foot with convolutions and machinations being apparently unavoidable. Yet the best way to deal with all of this intrigue is to be as open and honest as possible, which would entail the one of you dropping their façade and eventually coming clean, and the other eliminating whatever is getting in the way of what they want before getting in too deep. In any event, what is behind this interaction, and what is probably a perennial difficulty, is that of preventing concealed or hard to pinpoint issues getting in the way of any genuine connection that you have between you. This is in aid of eliminating any possibility that all there is to the relationship is compulsion and intrigue.

3. Relationship Strengths

To varying degrees, these are the harmonious interactions that create pleasure, reward and fruitfulness - as well as providing you with the love, compatibility and understanding to manage and transform the Relationship Challenges.

A's Mars Trine (harmonizing with) B's Sun 04°57'**Healthy Coupling**

This is a very positive interaction for it means that your intentions and actions are in sync with each other. And so activities and projects are executed swiftly, enthusiastically and efficiently. There is also a natural sexual harmony between you, at least on a purely physical level of expression. In fact, this interaction is quite basic for it makes it clear who wants what, who's on top, etc. If this can be accepted as enough then this interaction would act as a strong contribution to your relationship being lasting and satisfying. You are able to keep things simple with a kind of 'go for it or forget it' attitude. This can ease and overcome many difficulties that might arise, but not those of a more complex psychological variety. The asset of this interaction is that it makes you as a couple quite brisk, as long as it does not cause you to skip more subtle issues. Sporting activities are also something you may enjoy together or even excel in.

A's Uranus Trine (harmonizing with) B's Sun Close One 02°07'**Friends Until The End**

You have a very positive interaction because it has something that all too many relationships lack: a true sense of friendship. This means that you allow each other room to be yourselves, are open with one another, and that there is little or no possessiveness about each other. One of you has a liberating and awakening effect upon the other, giving them new ideas and directions. Alternative or metaphysical subjects are very likely to be the means through which this effect happens, and you may well have met in a situation that was related to such matters. Groups involved in esoteric or unusual pursuits can be a significant part of your time together. In return, the 'liberated' individual validates or furthers the other's more original expressions and qualities, rather like a monarch would patronise an artist. All of this positive interaction makes for a mutual attraction, mentally and/or physically, yet it does not necessarily confer the emotional stability that ensures a lasting tie. Paradoxically though, because you are always surprising one another with hitherto unknown facets of your characters, this relationship has a self-refreshing quality about it. Whatever the case though, that outstanding friendship should remain.

A's Sun Sextile (assisting) B's Ascendant Birth Time Sensitive 01°20'**Mutual Encouragement**

One or both of you makes the other feel more confident about their personal expression and appearance by helping them improve it, or simply appreciating it. Because of this positive effect, the person on the receiving end feels that they have something going for them too. This healthy interchange can lead to a positive escalation of mutual appreciation, contributing a good feel to any romantic or marital relationship. You are both confirming each other's existence and therefore get along consistently well.

A's Moon Sextile (assisting) B's Ascendant Birth Time Sensitive 02°57'**Emotional Ease**

There is a comfortable feel between the two of you provided by this interaction, but it is quite mild in its influence. So it will augment other harmonious links between you, but would do little to withstand or ameliorate deeper conflicts. Be that as it may, you do find that your feelings and attitudes fit well together. This would also mean that your timing was quite good, with you being in the right place at the right time for each other, and in relationship to circumstances around you.

A's Uranus Trine (harmonizing with) B's Mercury 04°16'***The Problem Solver***

Whatever else might be going on between you, this interaction provides you with a combined mental awareness of new ways of seeing things, and consequently new ways of being and doing too. What's behind this mental awareness is a brilliant, almost telepathic, communication. It has been said that if we were telepathic as a race, then all our problems would cease to exist. The reason being that we would always know what someone really meant, and also when someone was lying. Such mental accord, of which you have some measure, can overcome or actually prevent disagreements and misunderstandings. One could call this interaction 'The Problem Solver', as you free each other from whatever veils have obscured your perception of how things really are. You may even extend this mental tool to help others as well.

A's Saturn Sextile (assisting) B's Venus Close One 00°17'***Love And Duty***

There is definite layer of emotional responsibility and physical fidelity between the two of you. Any more flighty or indulgent elements in one or both of you will be prevented or at least brought to heel by this sense of social propriety. Through highs and lows, this interaction acts as a stabiliser, returning you to some kind of balance. The personal interchange behind this is that one of you is validating the worth of the other, but in a sober, understated way that is ultimately more substantial than a more sensational display of appreciation. They, in reciprocation, appreciate this quiet, less sensational, but reliable quality in their partner side, thereby establishing a very personal bond. Although this interaction is no more a guarantee of a sound and durable relationship than any other one aspect, it is or could be the mainstay of a marriage, business partnership or parent/child relationship.

A's Ascendant Trine (harmonizing with) B's Venus Birth Time Sensitive Close One 01°42'***Easy Attraction***

One of you is quite simply attracted to the physical appearance and manner of the other - and this could be mutual. This should be immediately obvious to the other who cannot but help feel flattered by such a response to their image. But that is all it is, one person's image and another's liking of it, and as such this interaction in itself could get a relationship started but little else - unless both of you were unbelievably vain or superficial! More profound and lasting interactions should, and probably do, exist between the two of you.

A's Saturn Trine (harmonizing with) B's Mars Close One 01°23'***Energy And Control***

This is what you could call a very useful interaction because it bestows practicality and industriousness. Apart from favouring a business relationship, it also means that you are well able to assist one another in getting things done or off the ground. This feeling of 'things to be done' that exists between you is of inestimable value for it counteracts any woolly or overly romantic notions that are so common in many relationships. This is a no-nonsense aspect. One of you is very good at spurring the other to action, even or especially in the area where that person feels inertia and doubt. In return, they show their partner, in a way they can accept, how to be more mature in the choice of their activities, and how to be more responsible where they are possibly selfish or headstrong. Because together you link energy and control, you can become a very effective team.

A's Mars Trine (harmonizing with) B's MidHeaven Birth Time Sensitive 05°08'***The Spur To Act***

You encourage or motivate one another to do whatever needs doing, be it at home or out in the world. So yours is an active relationship rather than a purely romantic or recreational type of thing. One of you always seems to have the wherewithal, either material or intellectual, to get the other a step nearer the goal - or even just to point out that there is a goal.

Accommodating The Unusual

You enable one another to find a place or direction for the unconventional, which can include anything from esoteric/alternative pursuits to quirks of character. The extraordinary in you or your lives is seen as quite ordinary by each of you. Consequently, you are far more at ease with one another than with more 'normal' members of society. You introduce something fresh and unforeseen into each other's life, and as such your involvement can mark a new beginning for one or both of you.

4. Socio-Cultural Interactions

These Inter-Aspects consist only of the slower-moving Planets. These are Jupiter and Saturn, sometimes called the Social Planets, and Uranus, Neptune and Pluto, the so-called Transpersonal Planets as they go beyond the individual and have more to do with generations and the shaping of cultures and civilization itself. So they show how two people interact at these levels. In some cases these interactions are hardly noticeable for they are absorbed into one's social and cultural milieu and not experienced as anything that 'personal'. However, by being made aware of them one is able to see advantages and setbacks that were previously 'invisible' and can thereby increase or reduce them. In other cases, especially when one of the Planets involved figures strongly in other interactions, or is a Close One or a Double Whammy (see Introduction above), such Inter-Aspects can be felt to be very significant.

Differences Of Opinion

Trouble can arise out of your respective morals and ethics coming into collision. This can particularly centre upon issues of material values versus spiritual values. Interestingly, until you came to hotly disagree with one another over such principles, you possibly did not know just how strongly you felt about them. So this interaction causes you both to grow in many respects as this interaction causes the friction that is necessary for growth. The difference of opinion, which is the essence of this interaction, should therefore be seen as a good thing. However, it only needs one of you to think that they are completely in the right over any given issue, and that could drive a permanent wedge between you. Even then, if the other has the real faith to see things out in good grace, then it would only be a matter of time before such a fanatical belief was seen to be the hot air that it is. It could be quite a long wait though.

The Realist And The Idealist

One of you, the 'realist', sees the other, the 'idealist', as impractical and overindulgent, while the 'idealist' regards the 'realist' as purblind, too reliant upon status and rules, and possibly as a stick-in-the-mud. In truth though, this difficult interaction is in aid of teaching both of you that creating a balance between these two sides of life - namely, growth and limitation - is highly important. As the Chinese philosopher Lao-Tzu said, "If you wish to contract something, you must first let it fully expand". This counsels the 'realist' to let the 'idealist' go off on their flights of fancy, possibly fall flat on their face, and come back the wiser. What can stop the 'realist' doing this is their own fear of taking chances or thinking big. So on the other hand, the 'realist' could learn a lesson or two from the 'idealist' by having more faith in life. Underlying all of this can be a fundamental difference in your respective socio-cultural backgrounds and values. The 'idealist' is more loose and fancy-free, while the 'realist' is structured and more formal. You both have something to offer one another, but deeply ingrained standards and opinions will be forced to the surface by the very conflict itself. In the process hopefully both of you will consciously choose the best of each and discard whatever inherited beliefs or conditions are constricting, outmoded or useless.

Realist Versus Dreamer

The more practical person, the 'realist' tends to experience the weaknesses and peculiarities of the other, the 'dreamer', as being detrimental to their stability and material well-being. The 'dreamer', on the other hand, sees the 'realist's' ingrained fears and inhibitions as being frustrating and suppressive. So a lot of blame and guilt can be generated by this conflict of values and approach. The 'realist' finds themselves in the position of having to hold the fort while the 'dreamer' is being feckless and irresponsible, at least from the 'realist's' point of view. But the 'dreamer' cannot stand playing by the 'realist's' rules, and regards them as the 'heavy father' who disapproves when they have a little fun. 'The Authoritarian and the Libertine' could be another apt title for this pairing. As far as adopting a more positive attitude, the 'realist' should endeavour to see that the 'dreamer', consciously or unconsciously, is trying to get them to go with the flow more, to stop trying to control everything, and to confess their fears and thereby disperse them. The 'dreamer' should honestly admit to any need for self-control, more practicality and generally cleaning up their act. Ultimately, both of you are forced by this interaction to listen to your consciences, rather than project them on to each other as blame and recrimination. Until this psychological impasse is dissolved, or at least recognized and admitted to, this is not a good aspect for the building of anything together.
